A. Intent

To establish procedures for Outside/External Scholarships and assure it is regulatory compliant with the U.S. Department of Education’s Federal Student Aid, state and institutional requirements.

B. Definition(s)

**Cost of Attendance (COA)** – COA is an estimate of a student’s educational expenses for the period of enrollment. Components of the COA include tuition and fees, room and board, books and supplies, transportation and miscellaneous/personal expenses.

**Estimated Financial Assistance** – The estimated amount to of assistance for a period of enrollment that a student (or a parent on behalf of a student) will receive from Federal, State, institutional, or other sources such as scholarships, grants, net earnings from need-based employment, or loans, including but not limited to -34 CFR 685.102(b)

**Overawards** – Aid in excess of the Cost of Attendance.

C. Policy

Federal, State, and University regulations prohibit “overawards.” - Outside sources of aid are funds given by entities apart from the federal, state, and institutional aid programs. Federal Regulations require students who are receiving outside sources of financial assistance (scholarships, grants, awards) to notify the Financial Aid Office, including awards paid directly to the student.

D. Procedure(s)

All outside awards, whether based on academic merit or financial need, will be counted as a source of aid and will be added to the total financial aid package and split evenly between all semesters of the aid year, unless otherwise noted. This may result in adjustments and/or reduction of other aid, such as loans, work study or institutional scholarships if the amount of aid received is over the student’s cost of attendance. Institutional aid reduced/removed due to an overaward will be
reinstated in future years if the student is still meeting the original eligibility criteria and is within the cost of attendance for that aid year.
