Credits Required: 40-41

General Education Requirements for PennWest students completing a
Legacy Program at California.

Updated: 3/29/2024

General Education

PennWest California students who are completing a Legacy Program are required to complete 40-41 credits of General Education coursework. This requirement is achieved by taking courses from a series of different "menus." Each menu has a list of courses that satisfy the menu goals. <u>A student who has not previously competed a requirement may select any course from the approrpiate menu, unless their major program of study has required a particular course.</u> Program-specific General Education requirements are listed on the Student's Degree Audit in DegreeWorks. Students should always consult with an academic adviser or their department chair regarding any program-specific General Education requirements.

Notes:

The menus for each requirement in the California Legacy General Education Progam are listed on the following pages. The Legacy courses listed in each menu have been updated with equivalent PennWest courses.

If a course is listed as on option on more than one menu, the course may only be used to satisfy one requirement. For example, MATH 1220 may be used to satisfy either the Mathematics and Quantitative Literacy Requirement or a General Education Requirement, but it may not be used to satisfy both requirements.

Please refer to your Degree Audit in DegreeWorks to determine if a specific course has been prescribed for any requirement.
